March 16, 2012

Mr. Wayne Vincent Rodolfich
Superintendent, Pascagoula School District
PO Box 250
Pascagoula, MS 39568-0250

Dear Mr. Rodolfich:

In response to your March 14 letter, did you not read my appeal or do you just intend to ignore anything I have to say? The phone you refer to is my property, it does not belong to my son. Under no circumstances are you to return it to him. He might just sell it or give it to a friend. While I allowed him to use it, it is still my property and I have purchased a replacement for him to use while I wait for you to return the first one to me. I am also appalled that Mr. West apparently returned the phone case to my son recently. Again, this is my property and he has no right to give it to anyone without consulting me first. It is bad enough that your District baits Students into bringing their Devices to School so you can decide which ones you want to confiscate. You should be ashamed of yourself!

I just can't believe how one sided this communication is and how you and the Board refuse to converse with me about it. I regret that my eyes were not opened sooner, but you can be assured that I have already started looking at property in Ocean Springs where the School Board appears to have more common sense and works with the parents instead of against them. I will also start my campaign to alert the public about how poor a job you and the Pascagoula School District is doing. It will involve social media and Realtors who are showing people properties so the public can be alerted that neighboring School Districts are much friendlier to the Parents than the PSD.

Please advise me a date, time, and place where I can retrieve my property so that there is no confusion. I will make this appointment a very high priority and I expect you to as well.

Sincerely,

Mark P Miller, P.E.
