Subject: Demand for my Property

March 2, 2012

Dear Wayne Rodolfich,

Since you requested that I only speak to you on this matter, I am pasting my letter to Mike Phillips below this message and asking you to apply it to yourself. You need to do the right thing and return my property. I don't have the money to fight you, but I will promise you that if you don't return my property, you will look back one day and say "I wish I would have just returned that phone when I had the chance". I will make it my mission in life. Public awareness of your unconstitutional practices and your plight of bringing communism and pragmatism into our education system will be exposed. It is a very simple thing to just return my property and return to your throne. Fight me and I promise you will regret it one day. Do the "Right Thing" and return my property to me.

As a note, I would like to mention that the phone case is not part of your policy and it should be returned. I would also like the courtesy of allowing me to backup my phone so I can transfer the contents to a new Device should you not return my property. This procedure should not violate your Policy and would save me some considerable money to get myself back in operation with a new Device. Please exhibit some good faith that shows you are not making this a personal vendetta against me.

Mark P. Miller, P.E.

Dear Mr. Michael Phillips,

As I continue my research to figure out how to get my iPhone back, I am being advised by Counsel that my Law Suit would need to be filed against the "Enrolled Agent" for the Pascagoula School District. Although I am having trouble determining who exactly that is via a web search, my Counsel tells me that it is the President of the Pascagoula School Board of Trustees which is you. Therefore, please accept this as "**Notice of Demand for My Property**".

My iPhone 4S was taken from my Son, Paul C. Miller, by his Math Teacher, Janene Thweatt on or about Wednesday, February 8, 2012. It is my understanding that Mr. Boyd West, Gautier High School Principal, has the Device in his possession locked in a vault at the School. He has been unwilling to return my property citing his promise to uphold and enforce School Policy. I would like to argue that the Device in question is more of a computer than a "Cell Phone" and therefore the Policy in question does not apply to this Device. Please ask him to return my property to me. If you are not willing to do this, please at least ask him to return the phone case which will at least save me some of the \$700 cost of replacement.

Failure to Return my Device in a timely manner will cause me to make the unnecessary expenditure to replace it and I will have little choice but to file a Larceny Suit for my incurred damages. Counsel will decide the named target of this suit, but at this time I suspect it will be you. In my opinion, Mr. West should be included since he has possession of it, but current Council disagrees.

This issue is also weighing on my support decision for your upcoming election. Your response or lack thereof will heavily impact who I support and campaign for in Saturday's election. Since this event is only 2 days away, please do not delay on your response.

I have already sent you a copy of my letter to Mr. Boyd West, but here are links in case you would like to refer to my other points about this ridiculous Policy.

Please do the "Right Thing" and return my stolen property to me.

Mark P Miller, P.E.
