	with rather than being equally as important in preparing a student for their life's work as the high school is considered to be. The ATC is regarded by the high schools as a dumping ground for those students that they (the high schools) cannot adequately prepare to be accepted into college. We are given students that can neither read nor write nor do basic arithmetic, nor read a ruler----yet we are supposed to teach them a life-skill so that they can become gainfully employed when they leave high school. Then when these sub-par students perform poorly on local and state tests, it somehow becomes the teachers fault and the programs are put on probation or the teacher must go to additional training over the summer break at their own expense. Quit stealing the summer vacation from the teachers unless you are willing to pay them during the summer as well as the rest of the year and quit making them take all these additional courses at the teachers expense simply because the colleges in the state need more money.

Pascagoula School District	The pressure felt regarding the test scores.
Pascagoula School District	I do not like how our district is the last district to improve or employ new technology. We should be leading by example and not following or waiting for other district to experiment with a new idea before implementing it here. We should be providing students with kindles instead of all the textbooks which would save the district money, teachers should have ipads for checking role and inputting grades which would allow them to move about the classroom and monitor students while doing these, we should explore ideas for our students such as the International Baccalaureate program, and the Cum Laude Society which would get our students recognition by colleges and universities.
Pascagoula School District	Nurses to student ratio; healthy school environments--more focus on following federal and state guidelines on fundraising, vending, etc.; lack of behavioral specialists in secondary schools
Pascagoula School District	We would like to see a higher level of parental involvement.

Pascagoula School District	✓ I dislike the inconsistency in enforcing rules and regulations among leadership. I dislike the way professional development days are facilitated--they are not focused on the individual/departmental needs of teachers. I dislike that there are great differences between the two high schools in the district. For instance, access to technology and access to arts and athletic related resources.

Gautier Middle School	I wish we had more parent involvement. I do not like the fact that our buses are arriving late due to extended time at the elementary level. THIS IS VERY DISRUPTIVE.

Gautier Middle School	We do not have enough telephones to call parents from and must often use our personal phones.
Gautier Middle School	The year begins in early August.
Gautier Middle School	All is good.
Gautier Middle School	I don't think we hold the students as accountable as we should. If students are failing a class, it seems to come back on the teacher most of the time. The students need to be held accountable for their level of work.
Gautier Middle School	Also, a student cannot receive a grade on their report card lower than a 50. If a student earns lower than a 50, they should be given the grade they earn. I don't think this sets a good example because this is not how it works in the real world. I feel like teachers are pressured to pass students to the next grade level even though they haven't earned the grade to do so.

Gautier Middle School	I do not like how the 6th grade is in pods this year. Needs to have more electives for students to chose.

Gautier Elementary School	As all workplaces go, there will be things to will sometimes not be well planned or organized the way one would hope and there will always be building issues that need to be addressed, so we truly do not have much to complain about. The biggest problem areas are the storage hit still has a hole in the roof which has been discussed for a full school year. The sidewalks we hope are planning to be replaced due to flooding. Otherwise, GES is fantastic!
Gautier Elementary School	Class sizes are to large in lower grades. First grade has to share one assistant.
